

Teeny Little Drop

Words and Music by Niki Davies

1. There's a teeny little, weeny little, tiny little drop
Of water on my nose.
Just a teeny little, weeny little, tiny little drop
Sitting there without a care.
2. There's a dirty little, murky little, muddy little puddle
Out there on the street.
Just a dirty little, murky little, muddy little puddle
Sitting there without a care.
3. There's a very old, very cold, very green pond,
It's out there in the woods.
Just a very old, very cold, very green pond
Sitting there without a care.
4. There's a big round, shiny, beautiful lake,
It's out there in the park.
Just a big round, shiny, beautiful lake
Sitting there without a care.
5. There's a great blue, giant blue, mighty blue sea
That stretches for miles and miles.
It's a great blue, giant blue, mighty blue sea
Sitting there without a care.

- This song is full of wonderful adjectives describing the differently sized areas of water, from a teeny little drop to a mighty blue sea. Can the children pick out any words they particularly like? Get them to roll the words around on their tongues and play with them a bit.
- Ask the children to pick their favourite verse and draw a picture using the lyrics as inspiration.
