

# IN MY GARDEN

- 1 I've got some beans and they're ready for me to plant in my garden,  
I've planted beans and they're ready for me to water in the ground.

## CHORUS

*I'll do what needs to be done,  
I'm spending my time looking after the garden.  
Wait for the rain and the sun  
And they'll grow!*

- 2 I've watered beans and I'm waiting for them to grow in my garden,  
(In my garden)  
I've waited weeks and there's nothing for me to see in the ground.

## CHORUS

*Be-doo-be-doo-be-doo.*

- 3 I've seen a shoot and it's coming to say 'Hello!' in my garden,  
(Hello!) (In my garden)  
I've said 'Hello!' and it's turning into a plant in the ground.

## CHORUS

- 4 I've got a plant and it's growing really well in my garden,  
(In my garden)  
Here come the beans, rather green on my plant in the ground.

## CHORUS

- 5 I've picked the beans on the plant, from the shoot,  
That I waited for for weeks,  
When there's nothing I could see,  
But I watered anyway,  
What I planted in the ground,  
Now I'll cook them for my tea,  
Such a lov-e-ly crop of beans from my garden!

*(Spoken)* BUT I DON'T **LIKE** BEANS!
